TUESDAY, SEPTEMBER 3, 1901.

ABOUT TOWN.

The editor is indebted to his friend Christian Hess for a budget of interesting clippings for THE HERALD, which come in very handy at times for "copy."

County commissioner's court met in special session today to attend to the bills growing out of the smallpox cases, and other matters of a minor nature.

The schooner Beacham sailed from New Orleans yesterday afternoon at one o'clock for Brazos Santiago, with a full cargo of merchandise. She was obliged to leave behind a large amount of freight, being already full.

Cards have been issued by Col. and Mrs. Praxedes Cavazos of Matamoros, announcing the baptism of their infant daughter, Maria Sara Leonor, who was born Nov. 21, 1900. The ceremony took place at the Catholic church in Matamoros on Aug. 29, his reverence, Bishop Filemon Fierro y Teran, administering the rite. Mr. and Mrs. Guadalupe Sada served as sponsors.

The Ratcliffe rice farm is the object of general interest in Brownsville at present, and many of our citizens drive out there every once in a while to see how it is getting on. There are about 65 acres of it, and those who ought to know consider the crop in a very promising condition. It is now heading and in a few weeks more will reach maturity, being at present at the stage known as "in the milk."

GET our prices on Billiard and Pool Tables before buying elsewhere, sold on easy payments. Our cushions are guaranteed for twenty years, and are made by a new vulcanizing process. Old tables fitted with our cushions are as good as new, satisfaction guaranteed or money refunded. See our advertisement of "Manager Wanted" for lawful slot machine. Palmer Billiard Table Works, Chicago, Ills.

The editor had the pleasure this morning of a handshake with Maj. J. B. Armstrong, whose visits to Brownsville are somewhat rarer than they used to be before he took up his residence in Austin. The major has lately been staying at his ranch, Chicago, in this county. He reports cattle in his pastures as rolling fat, and says he has plenty of grass now. The major has been boring for artesian water on his ranch lately, and has two wells in progress. Water has been struck in each at a depth of about 500 feet, but not a satisfactory flow, and boring will be continued until a real "crackerjack" is secured. So far, the major has no artesian wells in operation, but he will probably have two good ones in time.

District Court.

Court met this morning at 10 o'clock, with Judge Stanley Welch presiding, and the following officers present: District Attorney J. I. Kleiber, District Clerk L. Kowalski, Sheriff C. Garza.

The grand jury was empaneled and received the judge's charge, after which the grand jury retired to begin its duties. Following is its personnel: C. H. Thorn, foreman, Jacob Schwartz, Aaron Turk, Geo. Krasse, H. Reyes, Fernando Glavewke, W. H. Schmidt, Christian Hess, Manuel Molina, J. Connor, George More and Frank Champion.

The judge's charge was lengthy, occupying perhaps half an hour. It was impressively delivered and very clearly worded. Several new laws were called to the grand jury's attention, such as the law for the punishment of barratry, or the practice on the part of lawyers of exciting and encouraging lawsuits, also the prohibition of firing cannon fire-crackers within the city limits, the sale of cigarettes to minors, etc. The judge called special attention to the laws against gambling, sale of liquor to minors, and other similar matters. He dwelt at length upon the subject of perjury, which he denounced as a most pernicious sort of crime, and also called attention to the growing prevalence of the crime of cattle theft in this county, advising vigorous investigation of all cases coming under these heads and decisive action wherever proof of guilt was shown.

The following appointments were made: interpreter, S. Valdez, jr., bailiffs: Geo. Connor, Eulogio Garza, J. M. Trevino, Guadalupe Torres, J. M. Haynes, Victoriano Fernandez, jr., and Valentin Tamayo.

The appearance docket was then called, and no orders being taken court adjourned until tomorrow at ten o'clock.

The criminal docket was set for next Monday.

Worth \$40,000

From Point Conception, Cal., comes news that a valuable find of ambergris has been made there, the value of which promises to reach to \$40,000.

F. W. Walraven, a bridge carpenter at work on the Southern Pacific Road; T. J. Reddington agent at Conception, and J. Bosby, night operator, found a large mass, about 140 pounds in weight, of whitish, oily stuff, of which they brought specimens to Santa Maria, sending some to San Francisco for analysis. The report received proved that the substance was almost pure ambergris, and its value will probably exceed \$40,000.

GOLD OR HEALTH

It is seldom you can have your choice, but health you can have if you use G. F. P. The delicate physical organization of woman, under the conditions of life as they are today, requires that same care and constant readjustment as does the complex mechanism of a fine watch.

G. F. P. (GERSTLE'S FEMALE PANACEA) Strengthens, Heals and Regulates

every organ. It cures all forms of Womb and Ovarian trouble, including Whites, Prolapsus, Painful or Suppressed Menses, etc., and makes Child-birth and Change of Life easy and painless.

MRS. BENTON SMITH'S CURE.

My wife suffered with disease peculiar to her sex for three years and was unable to do anything. After taking two bottles of G. F. P. (Gerstle's Female Panacea) she is now entirely cured and can do all of her own work. She weighs more than ever before in her life and I feel that I cannot say enough in praise of it. We heartily recommend it to suffering women.

Texas and Irrigation

It has been demonstrated that beneath the rolling plains and farm lands of Texas, a never failing supply of soft water percolates gently seawards. In the rice sections it is found a few hundred feet from the surface. Farther north and west, the supply, while abundant is deeper. A six inch well will irrigate 160 acres of rice. Much more land can be brought into bearing where the crop is not so thirsty. A farmer at Beeville cleared over \$900.00 on an acre of cauliflower, irrigating from a three inch well which also supplied his entire farm. Irrigation is an ideal method. Careful experiments and the boring or driving of wells will do much towards alleviating drought conditions in this state and at a moderate expense. Irrigated crops are the surest and the experience of the arid states and the experience of the west demonstrates how successfully barren sections can be made productive by the employment of irrigating wells and ditches. Among the rice farms in the coast country, the six and eight inch wells are taking the place of the large canals and reducing the expense of making a crop. Only a Mask.

Many are not being benefited by the summer vacation as they should be. Now, notwithstanding much outdoor life, they are little if any stronger than they were. The tan on their faces is darker and makes them look healthier, but it is only a mask. They are still nervous, easily tired, upset by trifles, and they do not eat nor sleep well. What they need is what tones the nerves, perfects digestion, creates appetite, and makes sleep refreshing, and that is Hood's Sarsaparilla. Pupils and teachers generally will find the chief purpose of the vacation best subserved by this great medicine which, as we know, "builds up the whole system."
